

Young Audiences of Massachusetts  
Experience. Understand. Create. Connect.

Dear Parents and Guardians,

On SATURDAY, September 19th at 10am your child is invited to enjoy Young Audiences' *Stories from the Neighbors*, a performance by storyteller Norah Dooley, brought us by the **Berlin Cultural Council** and the **Friends of the Berlin Public Library**. Contact [sfoster@cwmares.org](mailto:sfoster@cwmares.org) for our private link. In this multicultural storytelling program, folk tales and fables include stories centered around social justice, immigration, tolerance, and diversity. *Stories from the Neighbors* embraces the cultural diversity that is found within our communities and shows children how much they can learn from people in their own neighborhoods. The LIVE performance culminates with a storytelling game in which the children find and tell their own stories, discovering how their voice is part of the greater communal voice!

**Talk about it!** Ask your child about the program - join them in viewing and participating! You can use the following open-ended questions to start the conversation:

*Tell me about the performance (wait for them to choose their own words).  
What was the best part? ~ How did it make you feel? ~ What surprised you?  
What are you still wondering about? How can we learn more about that?*
